# BIOGRAPHY

Type 41 began his electronic music career at the age of 19, when the draw of dance music sparked a passion that he simply could not deny. With inspiration in tow he began to explore and solidify his own signature sound that resulted in a blend of euphoric, orchestral beats, emotionally driving and wildly uplifting. Type41's style has been compared to the fusion of such producers as Andy Blueman and Daniel Kandi, culminating into a string of massive tracks such as "Never Forget You", "Mythology" and "Ascension". Over the last several years, Type 41's signature sound has built an impressive repute of original productions and remixes that have landed him support from some of the industry's leading trance and progressive performers including Armin van Buuren, Aly & Fila, Sean Tyas, ReOrder, Gai Barone, Solarstone, Sied Van Riel and Mark Sherry.

Type 41 is an artist who isn't afraid to push the limits of the trance genre. Because of his drive and commitment to never settle for the ordinary 2010 would see his popularity growing rapidly among the global trance elite who remain mesmerized by his out of the box creativity, unique layers, stunning musical form, defined basslines and dance floor energetic rhythms. Continued success and recognition amongst his musical peers has even enabled Type 41 to receive support on his most reputable tune "Ascension" which received support from Aly & Fila, Armin van Buuren and Sied Van Riel.

In 2011 Type 41 earned the unique opportunity to work with one of the industries more distinguished songstresses, Tiff Lacey. Together they produced one of Type 41's most popular tracks to date, "Never Forget You" which garnered the support of many well known DJ's around the world and from the looks of it, will go down in history as the one that put Type 41 on the map.

During the 2013-2014 transition, Type 41 would hit his stride to see his track "Destination" landing on one of the most beloved trance radio shows on the planet, A State Of Trance: Episode 623. But that was just the beginning! Soon, Type 41's track "Mythology" would receive the remix touch by electronic dance maestro Dimension, ultimately making its way on to one of the industry's most illustrious CD mix compilations, 'ASOT 2014' mixed by Armin van Buuren, as well as hitting the airwaves on episode 662 of A State Of Trance. On the label front Type 41 boasts affiliations with Silent Shore Records, Armada, Komplex Sounds, Fuzion Four Records, Echelon Records and the highly respected Abora Recordings, a label whose aim is to bring the best of uplifting, orchestral, and emotional trance music to the world.
